D.O.letter No.259/A/31, dated the 12th February, 1931, from the Commissioner of Police, C and M Station, Bangalore.

Rs. 150 is asked for by the Commissioner of Police to level up the police parade ground out of the discretionary grant at the Resident's disposal.

The Resident's discretionary grant is intended for the relief of minor charitable institutions etc., in the Station and it does not appear that a grant to the Commissioner of Police for levelling up the parade ground can be brought within the scope of the objects for which the grant has been placed at the disposal of the Resident. - Vide S N 2 and 3 / 121 A/1925.

Even the discretionary grant at the disposal of the Collector cannot be utilised for this purpose as it does not seem to come under any of the objects for which the Collector can give a grant.- Vide S N 5/A / 229/1922

As the Commissioner of Police says that levelling the parade ground is a strictly Government work, it seems that the cost is rightly debitable to the allotment under "Police - Works" and that the work can be carried out through the Municipal Executive Engineer.

Submitted for orders.

Issued No.1266, dated 20th February, 1931.

No. 259/A/31

Office of the Commissioner of Police,
Civil & Military Station, Bangalore.

Dated 12 February 1931.

My Dear Loch,

The Hon'ble the Resident spoke to me a few days ago about the Hockey field and I told him it had cost more than the Government grant.

He said he would consider the grant of a sum of money from the discretionary grant at his disposal.

We have actually finished the field but there remain about 40,000 cubic feet of surplus earth. This would cost an enormous sum to cart away. The alternative is to spread it over a large area, level it up and make a parade ground of it. We have no levelled parade ground at present.

The Government of India would object to the grant being given us for hockey ground purposes but there is no objection to it being granted for levelling up the parade ground which is a strictly Government work. If he can let us have Rs. 150/- out of the Rs. 500/- at present available I can do the work. The area to be levelled lies between the tennis courts and the hockey field where there is a fairly severe gradient. The actual gradient is about 1 in 34 in one direction and about one in 15 laterally and the
